Introduction

Powder Horn is a training opportunity designed to expose Venturing or Boy Scout leaders and youth members to activities and resources necessary to operate a successful high adventure program in several ways:

- * Help leaders to safely conduct outdoor activities of a fun & challenging nature
- * Provide an introduction to the resources necessary to successfully lead members through a program of high adventure
- * Allow youth members to experience high adventure activities in a safe non-threatening environment

Participant Qualifications

- * Be a registered member of BSA
- * Complete required training for their leader position, Venture YPT, & Hazardous Weather before the course
- * Be able to meet physical requirements of BSA Class III health form
- * Youth applicants must be approved by their unit leader and the course director and must be 14 years old

Learning Objectives

After completing this course participants should have introductory information that will provide the following outcomes:

- * Knowledge of the health & safety requirements, rules, & regulations of the BSA as they apply to outdoor programs
- * Introduction to the skills necessary to operate an outdoor program
- * Knowledge of how to identify local resources and consultants for high adventure activities
- * Promote youth & adult creativity when delivering high adventure programs

Backpacking

Powder Horn

The powder horn was long used by outdoorsmen as one of the most necessary tools for existence. The powder horn carried the propellant that allowed him to sustain daily life.

The powder horn ranged from the very plain, yet functional, to the ornate work of art, but its use was the same: a Vessel to sustain.

The recipient of the Powder Horn recognition is also a Vessel ... to help sustain the spirit of adventure and excitement of the "old" outdoorsman in our youth. The propellant that we carry is the knowledge to share with them.
